BOARD MEMBERS NEEDED!!

In these challenging times, are you looking to give back to your community and aid in helping those individuals most in need? Do you feel the call to put your talent guiding other leaders to good use? If you are a strong strategic thinker, with an acumen for small non-profit organizations operating in the human service arena, our agency may be exactly what you are looking for; you could be part of something meaningful, and most of all, essential to the guiding the growth of our organization in its mission to provide high quality trauma-informed care to the individuals we serve.

The Northeast Center for Youth & Families, Inc., a nonprofit agency based in Easthampton, MA, is looking for individuals of varying backgrounds and talents to join our board of directors. For over 40 years, our volunteer board has provided guidance to its leaders regarding growth and stabilization of the agency, ensuring that we deliver high quality care to the individuals we serve while responding appropriately to changes in our community, and looking for new ways we can help our consumers live more meaningful lives.

We are looking for board members to provide foresight, oversight, and insight. Our Board members are the fiduciaries who steer the organization towards a sustainable future by adopting sound, ethical, and legal governance and financial management policies, as well as by making sure NCYF has the resources to advance its mission.

If you are a conscientious and committed individual who is willing to volunteer your time by attending approximately six board meetings per year (currently all meetings are virtual,) please call our Executive Director, Meredith Lagoy, at 413-320-2147 to find out whether this volunteer opportunity is right for you.

Founded in 1972, Northeast Center for Youth and Families (NCYF) serves more than 600 children, teens, adults and families annually with a broad range of programs. With a comprehensive continuum of care, NCYF's services include foster care and residential programs, in-home therapy, therapeutic day programs and outpatient mental health services. Our mission is to provide those we serve with the stability, skills and support they need to be successful in their homes, schools, jobs and communities.
